Tobacco Must Be In Top Order

As Virginia fire-cured tobacco growers prepare for opening of the markets on November 28, the U. S Department of Agriculture and the tobacco trade groups are encouraging growers to offer tobacco of desirable order and of maximum acceptability to the trade.

This is not a new program. It was set in motion a year ago when it became evident that continued marketing of type 21 tobacco with high moisture content might adversely affect Virginia's dark tobacco markets, both here and abroad.

No price support was available on 1959-crop type 21 tobacco grading "wet." Again this year, to curb the marketing of tobacco in poor handling condition, the Department announced this week that tobacco graded "unsafe order" (W) or "unsound condition" (U) is not eligible for price support through Government loans.

A sharply diminishing market for all fire-cured tobacco, especially the export market, has been a matter of concern for the past several years to the U. S. Department of Agriculture, and to the dark tobacco trade organizations.

They point to the fact that buyers must pay more for the Virginia fire-cured (type 21) leaf than for competing types 22 and 23 produced in Kentucky and Tennessee.

This is explained, they say, by the fact that the high-moisture Virginia leaf, when dried and packed, returns to buyers less salable tobacco per hundred pounds than they get from the Kentcky - Tennessee types.

Several agencies of the Department are bringing the present situation to the attention of Virginia dark tobacco growers so that the information may help them obtain the best possible price for their 1960 crop.

Announces For Governor

Coming on the heels of the recent Presidential Election, politics kept in the spotlight in Vaginia this week, with an announcement from Lieutenant Governor A. E. S. Stephens, of Smithfield, that he would be a candidate for Governor in next year's state election.

His announcement was the first for Governor, but there was general expectation that there would be other candidates.

It was understood that Virginia Attor. ey-General, Alberta S. Harrison, of Lawrenceville, might be on the ballot for Governor.

There has also been a following of support for State Senator Harry F. Byrd, Jr., of Winchester. It has been felt by many admirers, that the son of the distinguished former Governor and present Senior United States Senator, Harry Flood Byrd, was "in line" to be Governor of Virginia. If Mr. Byrd decides to offer as a candidate, he would certainly come to the primary with firm backing.

Lt. Governor Stephens was active in support of the nation al Democratic ticket in the recent Presidential election.

"In order to promote this, the American Legion Auxiliary, Unit 104, will sell flag kits for home display. Also available will be flag kits for lawns, merchants and public buildings.

"It is hoped that we will make Appomattox a town which will say to the world We are proud to be Americans by buying flags and displaying them."
